HASIL TUGAS 7 LARAVEL FAISA AL FARREL

isi Route api.php

```php
use Illuminate\Support\Facades\Route;
use App\Http\Controllers\GenreController;
use App\Http\Controllers\AuthorController;
use App\Http\Controllers\BookController;
use App\Http\Controllers\AuthController;
use App\Http\Controllers\TransactionController;

Route::post('/login', [AuthController::class, 'login']);
Route::post('/logout', [AuthController::class, 'logout']);

Route::apiResource('genre', GenreController::class)->only(['index', 'show']);
Route::apiResource('author', AuthorController::class)->only(['index', 'show']);
Route::apiResource('book', BookController::class)->only(['index', 'show']);

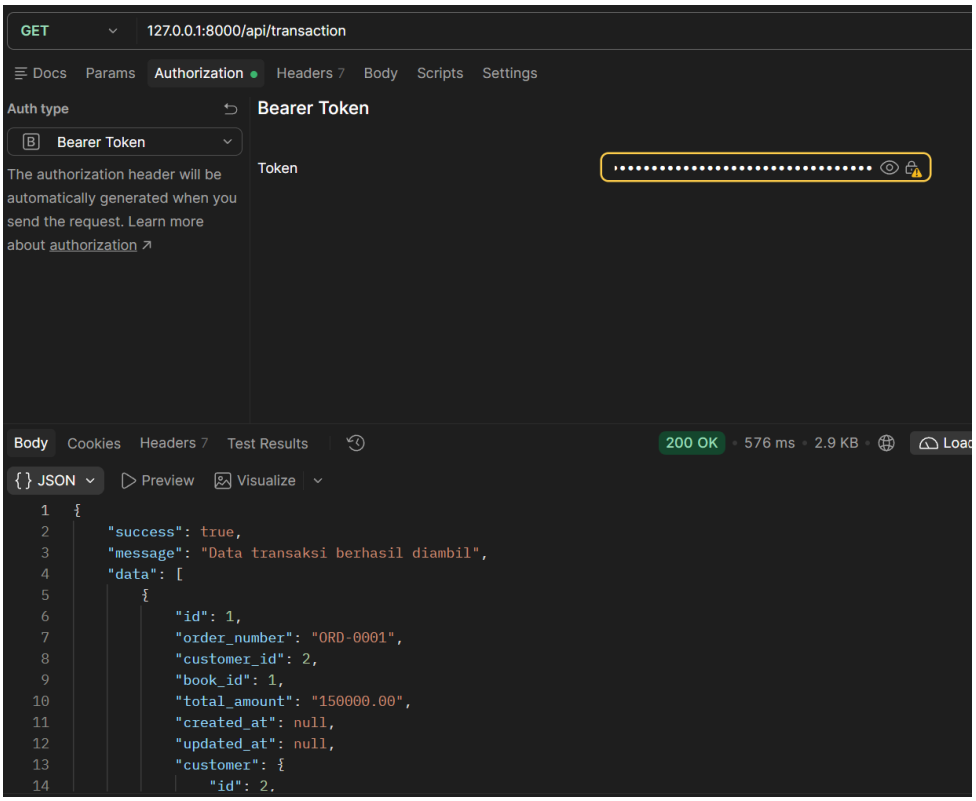

Route::middleware(['auth:api'])->group(function () {
    Route::apiResource('transaction', TransactionController::class)->only(['store', 'show', 'update']);
    Route::get('/my-transaction', [TransactionController::class, 'myTransactions']); // Lihat transaksi
});

Route::middleware(['Admin'])->group(function () {
    Route::apiResource('genre', GenreController::class)->only(['store', 'update', 'destroy']);
    Route::apiResource('author', AuthorController::class)->only(['store', 'update', 'destroy']);
    Route::apiResource('book', BookController::class)->only(['store', 'update', 'destroy']);
    Route::apiResource('transaction', TransactionController::class)->only(['index', 'destroy']);
});
```

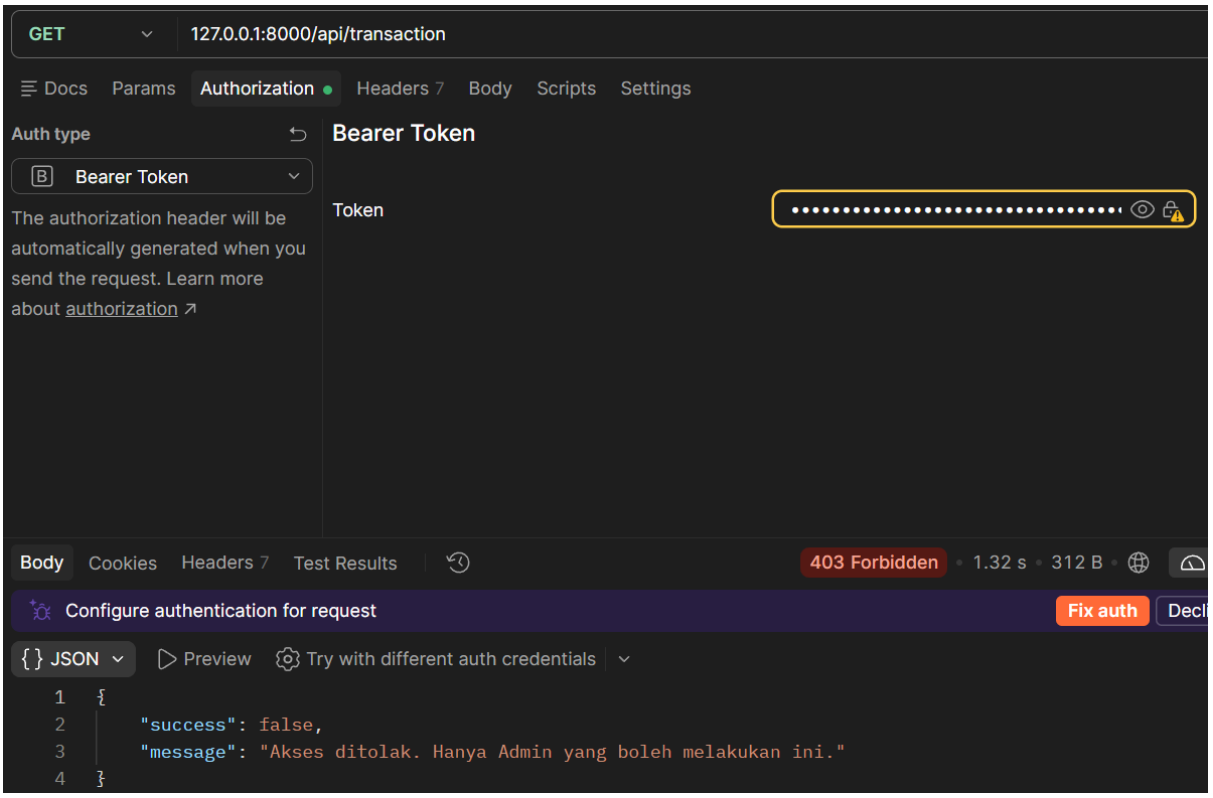

Hasil POSTMAN

a. Transaction

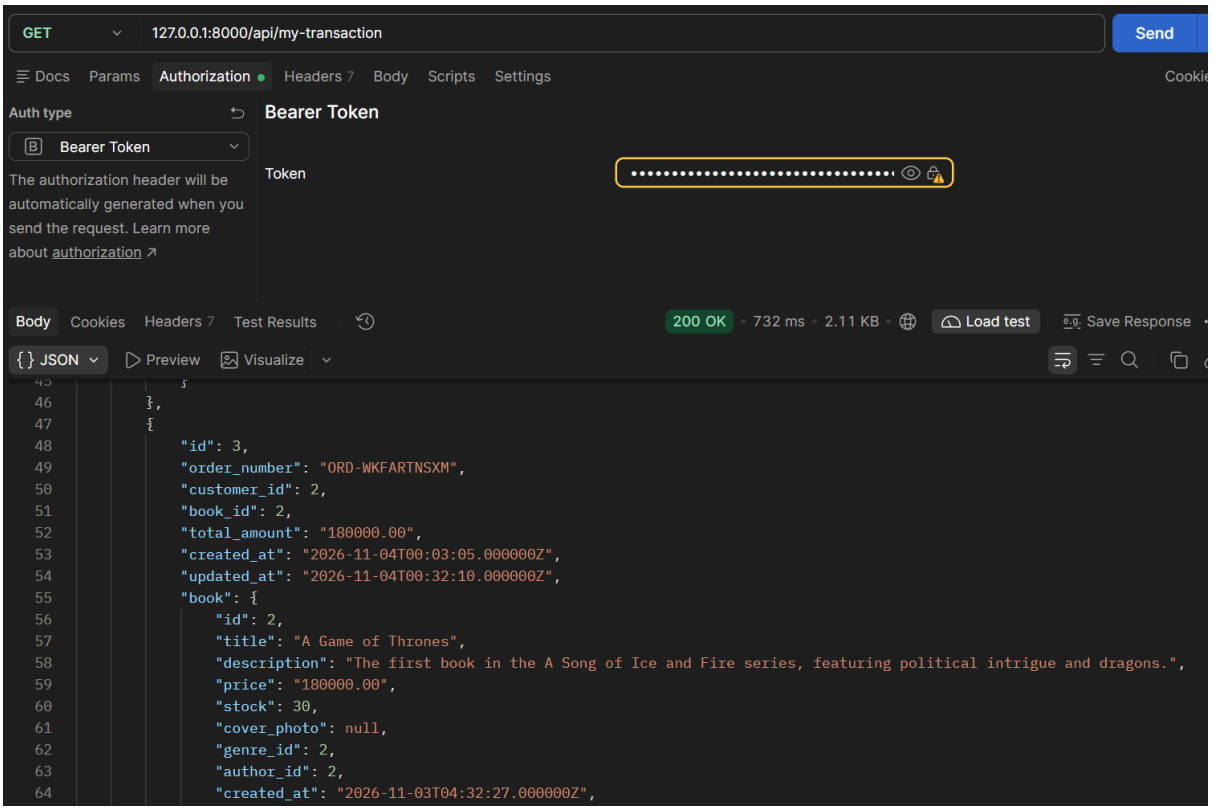

Get all

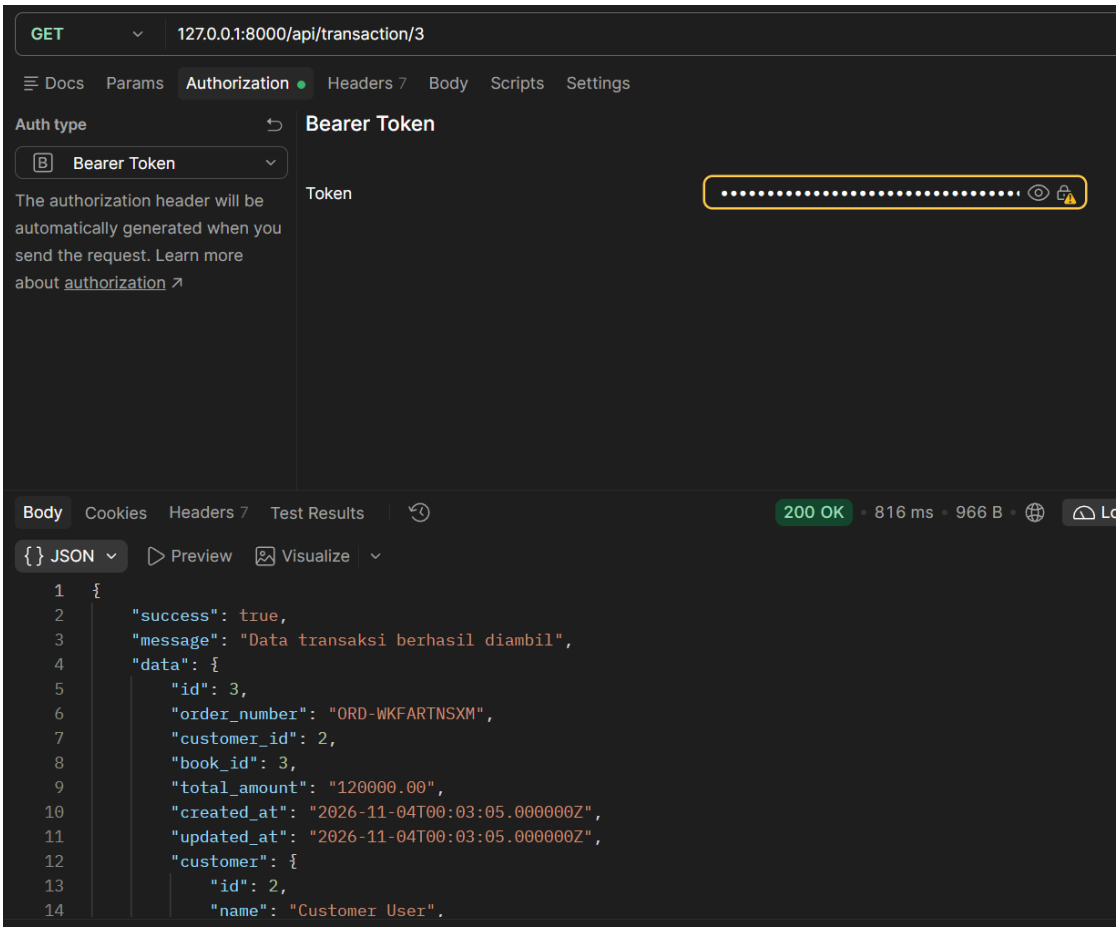

Get all ditolak karena bukan admin

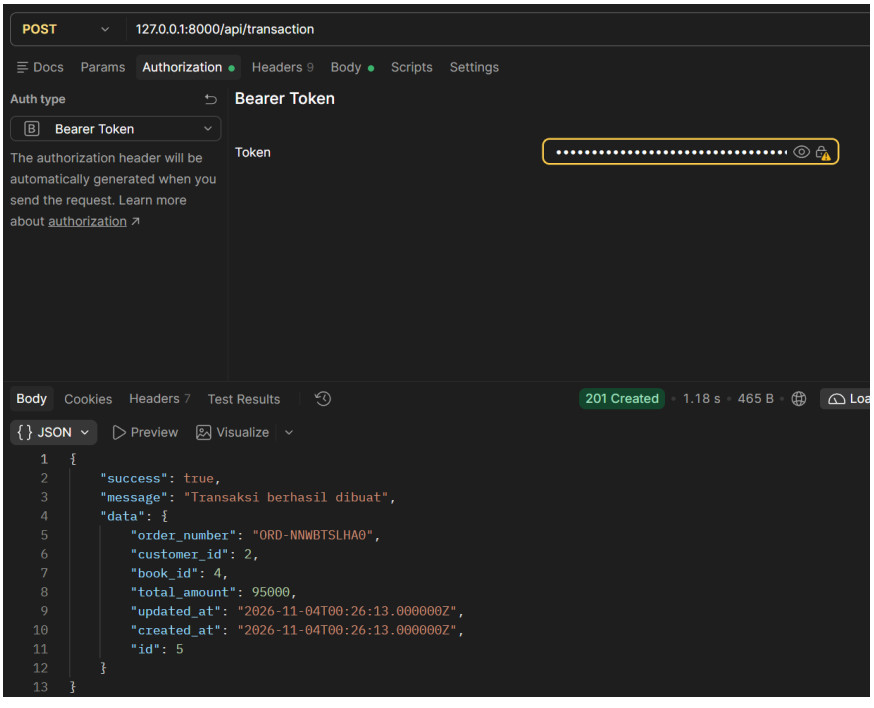

Get my transaction

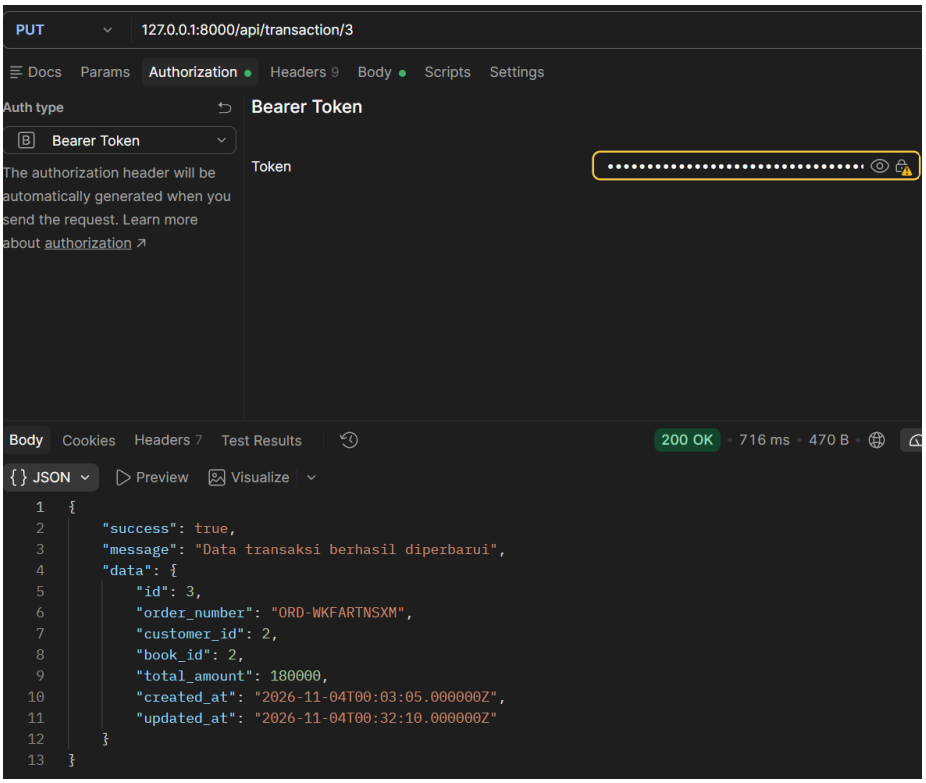

show data id 3

store data baru jika sudah login akun admin

update data id 3 jika sudah login dengan akun customer

delete data id 5 dengan akun admin
